SOUMIK PAUL

CYBERSECURITY ANALYST

Kolkata, India | +91-8585899504 | soumikp922@gmail.com | linkedin.com/in/soumik-paul-06629a155

PROFESSIONAL SUMMARY

Cybersecurity Analyst with hands-on experience across Identity & Access Management, Security Operations and Vulnerability Management at Cognizant. Experienced with Okta, Microsoft Defender, Carbon Black, ThreatLocker, Mimecast, Netskope, Cloudflare, Qualys VM and ServiceNow. Supports endpoint security, phishing investigations, access lifecycle operations, vulnerability troubleshooting and enterprise incident/request management.

PROFESSIONAL EXPERIENCE

Cognizant Technology Solutions | Cybersecurity Analyst | Sep 2024 - Present

Security Operations & Vulnerability Management | Feb 2026 - Present

- Monitored and investigated endpoint security alerts using Microsoft Defender, Carbon Black and ThreatLocker.
- Managed email security operations in Mimecast, including phishing investigations and daily phishing reporting.
- Supported cloud security administration across Netskope and Cloudflare.
- Administered Microsoft security platforms including Microsoft 365 Admin Center and Microsoft Defender Portal.
- Managed ServiceNow INCs and RITMs within SLA-driven operational processes.
- Investigated Qualys VM issues including Agents Not Communicating and agent version upgrades.
- Validated CMDB asset gaps and coordinated with infrastructure teams on Assets Missing in CMDB cases.
- Documented security investigations and troubleshooting through operational reports and security records.

Identity & Access Management (Okta) | Sep 2024 - Jan 2026

- Managed JML lifecycle operations in Okta, covering onboarding, role/access changes and offboarding.
- Provisioned and modified access through application assignments, group memberships and permissions.
- Supported authentication by resolving SSO and MFA-related access issues.
- Processed IAM incidents and requests through ServiceNow INCs and RITMs.
- Maintained access documentation and followed security and compliance requirements.

TECHNICAL SKILLS

IAM: Okta, JML, SSO, MFA

Endpoint Security: Microsoft Defender, ThreatLocker, Carbon Black

Email Security: Mimecast, Phishing Analysis

Cloud Security: Netskope, Cloudflare

Vulnerability Management: Qualys VM, CMDB Validation, Agent Troubleshooting

Microsoft: Microsoft 365 Admin Center, Windows Administration

ITSM: ServiceNow (INC, RITM)

EDUCATION

Bachelor of Technology (B.Tech) | 2023
